I love you too, we just need to stay focused. I just got another parcel like the letter but addressed to Emma. It was a book call 201 techniques to pleasure your husband... sent the same way as he last one...

Jesus! Did she see it? That's creepy & really weird. P17's husband wouldn't do that.

I hope not, it's someone else having a go at me... but directly targeting my family which is nasty and I think I know who it is. I think I've been followed and maybe even that they told

P17's husband not realising his position.

She opened it as it was addressed to her in her maiden name...

P17's husband

Fuck - that's terrible. Who do you think it is? I'm sure it's not now. He would never go that low. How worried are you about it continuing?

It's someone who knows about us but not much else. I think it probably will continue but is only designed to cause grief at my end... it will be the people I have been fighting with in Army. They would go this low and may have had someone follow us...

We are changing our PO Box so if they get the new one then it will show they are professionals not randoms...

God do they have nothing better to do? I can't believe there are people like that out there. How dangerous are they - to us? It always seems to happen at the worst time - your

wedding anniversary, the day you're going on family holiday.
Though maybe that's no coincidence either.

Correct, it's not really an issue yet however their agenda is simple, payback! I think I can call them out and warn them off however I would have thought if they actually had anything definitive they would have used it all ready... We just need to be careful but the time apart will work on our favour, unfortunately when I seperate they will think they won.
